Executive Summary

PROMPT STEEL BUILDINGS AND CONTRACTING (PSBC) is a general contracting company, in which is providing service to industrial, commercial and residential sectors in a high quality standard using the latest value engineering processes.

PSBC is a geographical expansion of the company operations in Qatar. PSBC was established in November 2006 in Abu Dhabi - UAE to cater the booming and demanding market in UAE specifically the Emirate of Abu Dhabi.

PSBC Principles

• **Integrity.** We are honest, consistent, fair in all aspects of our behavior, and we communicate openly and directly.

• **Customer Satisfaction.** We will strive to exceed customers’ expectations and will dedicate our time and efforts to deliver a quality service to all clients.

• **Commitment to Innovation.** We consider that learning and development is a continuous process. Consequently, we will adapt a state of the art technology and practices to enhance the efficiency of our operations.

• **Safety.** Our employees are the most important assets. Therefore, we will offer safe and sustainable working conditions for them as per (ISO 18001:2007).

• **Team Work.** We will seek to attract and develop leading talents, and create an environment where individual growth is the foundation of company growth.
PROMPT STEEL BUILDINGS AND CONTRACTING (PSBC) is a General Contractor in United Arab Emirates, in which PSBC is a pioneer in providing construction solutions in professional and cost effective manners:

A. Turnkey Contracting

PSBC provides experienced and knowledgeable professionals to handle all phases of project construction. As a General Contractor, we handle all types and volumes of projects from new construction to renovations. Our project management team provides full coordination throughout all project phases with our field staff, Workers and qualified subcontractors delivering project on schedule with the highest standards of safety, environmental and quality.

B. Design and Build Solutions

PSBC handles Design-Build projects, in which establishes a direct contract with client to provide all design aspects related to structural, architectural and electromechanical. PSBC and design personnel, working together as a team, evaluate alternative materials and methods efficiently and accurately. Value engineering and construction ability are utilized continuously and more effectively when the designers and PSBC work as a team during the entire design process. These steps ultimately save the owner significant amounts of money and time.

C. Value Engineering

Value Engineering (VE) is a systematic, functional, and creative analysis of a construction requirement to achieve the best functional combination of cost, reliability, and performance, over the life-cycle of products, systems, equipment, facilities, services, and supplies. VE is performed by PSBC team of experienced multi-disciplinary professionals and subject specialists, whose discipline and expertise match that required by the construction project. VE is usually performed by the Design Review A-E. The VE Workshop occurs at the 35% Design Stage or earlier.
Manpower and Machines

In general, Prompt steel is managed and operated by a team of professionals with unique talents from diverse backgrounds. Today PSBC employs over 340 employees in both UAE and Qatar which has earned a remarkable position in the market in a very short time. The management has initiated an extensive plan to keep the firm growing in order to serve the market needs. This supports our insistence to quality and customer service at the forefront of operations. As PSBC continues to grow and expand its market share, the founding philosophy of constant quality solutions is more prominent than ever.

PSBC is certified and implements the Integrated Management System (IMS) which consists of Quality Management System (ISO 9001:2008), Occupational Health and Safety Management System (ISO 18001:2007) and Environmental Management System in which PSBC has been successfully audited by Vincotte Middle East.

A. Quality Control & Assurance Plan (QMS 9001:2008)

PSBC maintains Quality Assurance Plan, which will be implemented for each individual project, the company is handling, covering the aspect of work involved within each project. The QA/QC plans are based on the corporate Manual and adapted to suit each Client’s requirements in accordance with contract conditions. This will enable integration within the Company QA Systems and allows for greater control in implementation. QA plans include project organization structure, coordination and operational procedures, with concerned authorities and responsibility scheme for all stages of the project.

B. Health & Safety (OH&S MS 18001:2007)

All the plans and procedures are regularly monitored and audited, both at the project and corporate levels to ensure compliance with contractual requirements. Regular meets of the Quality officers are conducted in the presence of Clients and Consultants in order to review the Quality aspects and to adopt positive views.

The Company follows guidelines of its HS & E Policy and implements procedures detailed in this HS&E Manual. During the past years of operations, the Company has gained recognition from Clients and Authorities due to the Company’s ability to fulfill its contractual obligations towards its clients as well as the ability to maintain a healthy and safe working environment for its personnel and visitors.

C. Environment Management System (EMS-14001:2004)

PSBC strictly applies and monitors its Environmental Management System procedure to reduce cost of waste management, savings in consumption of energy and materials, lower distribution costs, improved corporate image among regulators, customers and the public framework for continual improvement of environmental performance.

All policies and procedure are maintained to cater the company’s efficient system implementation, which at the end improves the company’s workplaces for employees, clients, and suppliers.

Letter of Appreciation

HILONG

19th November 2009

Prompt Steel Building and Contracting Co.
Khalifa St. Abu Dhabi
U.A.E.

Attention: Mr. Sahaib Al Yousef
Technical and Commercial Manager

Subject: Letter of Thanks and Appreciation

Dear Mr. Sahaib,

The contract for the construction of our new facility for manufacturing of Drill pipe, OCTG end-finishing and Internal Coating was awarded to your company in November 2007.

A completion period of 12 months was given for the tendered works-scope. Construction began in January 2008 and we quickly formed an excellent working relationship. Your workforce was efficient, hardworking and extremely flexible during the execution of the project.

As the project progressed, we incorporated significant modifications to the design which was accommodated by your company with ease and minimum delays.

The quality of workmanship from foundations to decorative finishing has exceeded our expectations. The project finished on time and within our budget.

I would like to thank Prompt, its Management, Engineers and workforce for their flexibility, understanding and dedication to the project. Without this, I am sure that the project would have faced major delays and increased cost.

I would have no hesitation in recommending Prompt Steel Building and Contracting Co. for similar projects.

Yours faithfully,

James Taylor
General Manager

Project: Ansaldo Thomassen Gulf Project @ ICAD III – Abu Dhabi, UAE

Subject: Letter of Appreciation and Gratitude

Dear Mr. Sohaib,

On behalf of Ansaldo Thomassen Gulf, I would like to thank PSBC, its Management and workforce for their flexibility, understanding and dedication to our new workshop facility project, which was awarded to your company in February 2009.

During the construction period of the said project for which the construction began in April 2009 for which we quickly formed an excellent working relationship. Prompt Steel Buildings & Contracting L.L.C was efficient, hardworking and extremely flexible during the execution of the project.

The quality of service that we receive from you and your associates was much appreciated. As we have incorporated significant modifications to the design which was smoothly executed by your Company with ease and minimum delays, Nonetheless, your organization worked well with us and was supportive in every way. We look forward to future positive events with Prompt Steel Buildings and Contracting L.L.C.

I would have no hesitation in recommending your company for similar projects; and we look forward to future positive events with Prompt Steel Buildings and Contracting L.L.C.

Yours Faithfully,

Fausto Nepote
